

Barking Gecko

OVERVIEW

- Scientific Name: *Underwoodisaurus milii*
- Origin: Australia
- Ease of Care: Beginner
- Potential Adult Size: 4-5 Inches
- Life Span: 8-10 years
- Behaviour: Nocturnal
- Diet: Insectivore
- Handling: Intermediate

TOP TIPS

- ✓ To keep your Barking Gecko stimulated, vary their food

HOUSING

HabiStat Tall Terrainium 24 x 15 x 12" (HT24T)

EQUIPMENT NEEDED

- Housing: Terrainium
- Heating: Heat Mat
- Thermostat: Mat Stat
- Lighting: UV Tube (Light Cycle: 12 hours of light)
- Substrate: HabiStat Leopard Gecko Bedding, Arcadia EarthMix Arid
- Water: HabiStat Sandstone Water Dish

ENVIRONMENT

Terrainium Setup

Enclosure Readings

- Background Temp: 18°C - 22°C (64-72°F)
- Hot Spot: 28°C - 32°C (82-90°F)
- Night-Time Temp: 15°C - 20°C (59-68°F)
- Humidity: 40%-50%
- UVI: 1-2

Heating

The HabiStat Leopard Gecko Starter Kit (HSLGSK) will provide all the light, heat, safety elements and the needed Terrainium (HT24T), in one handy kit.

The Barking Gecko (*Underwoodisaurus milii*) is a nocturnal reptile and requires a suitable light and heat gradient in the enclosure to simulate a complete 24-hour period.

Provide a warmer/hot area towards one end of the enclosure using the provided heat mat to offer a heat gradient, all running in conjunction with the provided HabiStat Mat Stat (HTMW1).

Mat Stats are designed to regulate temperatures using a thermostat probe (also known as a sensor).

Check temperatures and humidity regularly using a reliable thermometer and hygrometer to ensure that there are no extreme fluctuations.

Lighting

Fit the Arcadia Mini UVB Kit (RADBR8S), or alternatively the Arcadia LumenIZE Pro T5 UVB Kit ShadeDweller 7% (RARLZ8S) to the inside roof of the Terrainium using the supplied brackets.

Ensure that it is fitted correctly and within the manufacturers recommend distances providing a UVI of 1-2.

Substrates and Decoration

Personal choice will dictate how you decorate your enclosure, but we recommend the following as examples:

- HabiStat Leopard Gecko Bedding (HSLGB5), Arcadia EarthMix Arid (RAREA5)
- HabiStat Cork Branch (HDB500), HabiStat Grapevine (HSGVS) and the HabiStat Log Hideout (HSNLHM) will offer shelter and enrichment within the enclosure

DIET & WATER

Ensure the Barking Gecko has a varied diet, with a mixture of insects.

Young/Juvenile - Several appropriately sized feeders 2 to 3 times per week such as:

- Crickets – 3rd
- Locust – Small Hopper
- Calci Worms

Adult – Several appropriately sized feeders per week such as:

- Crickets – Large
- Locust – 3rd Hopper
- Dubia Roaches – Medium

Always provide a source of fresh water. The HabiStat Sandstone Water Dish (HRSSC) will provide a safe and sturdy option.

To maintain and regulate humidity within the enclosure, mist as required.

SUPPLEMENTATION

Following a supplementation regime that involves calcium and multivitamin powders such as HabiStat Pure Calcium (HMC40), HabiStat Reptavite (HMRV40), HabiStat Repton (HMR40) and Arcadia Earth Pro-A (RAREP100) will be beneficial to the health and wellbeing of the animal.

ADDITIONAL INFORMATION

- Barking Geckos can display a few defensive behaviours, from arching their back, to waving their tail.
- As their name suggests, they are known to produce a 'barking' sound when threatened.

HEALTH & HYGIENE

We recommend the following cleaning routine to keep your Barking Gecko healthy and happy:

	Water	Substrate	Enclosure
Daily	Change old water for fresh water	Spot clean	Check vents on enclosure are not blocked and allow air to pass through freely
Weekly	Disinfect water bowl or dish	Agitate substrate to prevent any bacterial build-up and remove any dirty bedding	Wipe down glass and walls with a reptile safe disinfectant
Monthly		Take out old substrate and replace with new substrate	Wipe down inside the enclosure and disinfect décor with a reptile safe disinfectant

Always wash your hands, surfaces and equipment with warm water and disinfectant immediately before and after handling or feeding your Barking Gecko, their food, enclosure and any other equipment using HabiStat Anti-Bac Spray (HABS) for any surface, and HabiStat Hand Sanitiser (HABG) for hand hygiene.
