

European Green Tree Frog

OVERVIEW

- Scientific Name: *Hyla arborea* & *Hyla savignyi*
- Origin: Northern and Southern Europe
- Ease of Care: Beginner
- Potential Adult Size: 1-2 inches
- Life Span: 2 to 5 years
- Behaviour: Nocturnal
- Diet: Insectivore
- Handling: Intermediate

TOP TIPS

- ✓ Provide logs, cork bark, and branches for enrichment within the enclosure
- ✓ Add live plants and pockets of moss to help maintain humidity

HOUSING

HabiStat Glass Terrarium 45x45x45cm (HGT4545)

EQUIPMENT NEEDED

- Housing: Terrarium
- Heating: Heat Mat
- Thermostat: Mat Stat
- Lighting: UV Tube (Light Cycle: 12 Hours of light)
- Substrate: HabiStat Jungle Bio (HSJB10), HabiStat Coir (HSCB), Arcadia EarthMix (RARE10)
- Water: HabiStat Sandstone Water Dish (HRSSCM)

ENVIRONMENT

Terrestrial Terrarium Setup

Enclosure Readings

- Background Temp: 23-25°C (73-77°F)
- Hot Spot: Not Needed
- Night-Time Temp: 16-21°C (61-70°F)
- Humidity: 60-90%
- UVI: 1-2

Heating

European Green Tree Frogs are ectothermic (cold-blooded) animals and take all their heat requirements from external sources.

Using the HabiStat HeatMat (HHM17) on the outside rear of the Terrarium should help maintain the required background temperatures. The Heat Mat should be used in conjunction with a HabiStat Mat Stat (HTMB1). Mat Stat Thermostats are designed to regulate temperatures using a thermostat probe (also known as a sensor). Correct placement of the probe is critical to avoid overheating and injury to the animal.

Check temperatures and humidity regularly using a reliable thermometer and hygrometer to ensure that there are no extreme fluctuations.

Lighting

Use the Arcadia Pro T5 UVB Kit (RARTP8SA) or alternatively the Arcadia LumenIZE Pro T5 UVB Kit 2.5% (RARLZ14S) on the mesh roof of the terrarium, as this is specifically designed for arboreal reptiles and amphibians.

Ensure that it is fitted correctly and within the manufactures recommended distances, providing a UVI of 1-2.

Using an Arcadia Jungle Dawn LED Bar (RAJDP1), or alternatively the Arcadia LumenIZE Jungle Dawn LED Bar (RARLJ1) alongside the suggested UVB will also contribute to providing beneficial full spectrum lighting for both animal and plant life.

Substrates and Decoration

Personal choice will dictate how you decorate your enclosure, but we recommend the following as a guide:

- HabiStat Jungle Bio (HSJB10), HabiStat Coir (HSCB), Arcadia EarthMix (RARE10).
- HabiStat Cork Branch (HDB1), HabiStat Grapevine (HSGV) and HabiStat Tea Tree Branch (HSNTB) will offer shelter and enrichment within the enclosure.
- HabiStat Sphagnum Moss (HSM1) kept damp will aid maintaining humidity.
- Live or artificial plant decoration will provide darker areas for the animal to use as shelter.

DIET & WATER

Ensure the European Green Tree Frog is offered a variety of insects.

Young/Juvenile – Several appropriately sized feeders 2 to 3 times per week such as:

- Crickets – 2nd
- Locust – 1st Hopper
- Calci Worms

Adult – Several appropriately sized feeders per week such as:

- Crickets – Standard
- Locust – 3rd Hopper
- Dubia Roaches – Medium

Always provide a source of fresh water using the HabiStat Sandstone Water Dish (HRSSCM).

To maintain and regulate humidity within the enclosure, mist as required. Using the HabiStat Rainmaker (HSRM) will also help to maintain humidity levels.

Water must be treated with a water conditioner such as Exo Terra Aquatize (DEA120) to make tap water safe for reptiles and amphibians.

SUPPLEMENTATION

Following a supplementation regime that involves calcium and multivitamin powders such as HabiStat Pure Calcium (HMC40), HabiStat Reptavite (HMRV40), HabiStat Repton (HMR40) and Arcadia Earth Pro-A (RAREP100) will be beneficial to the health and wellbeing of the animal.

ADDITIONAL INFORMATION

- Using the HabiStat Humidifier (HDH01) will help maintain humidity
- Any water must be treated with a water conditioner such as Exo Terra Aquatize (DEA120). Exo Terra Aquatize Terrarium Water Conditioner treats the chemicals put in tap water making it safe for reptiles and amphibians.
- Exo Terra Aquatize also contains plant extracts to stimulate natural slime coat development in amphibians and fish.

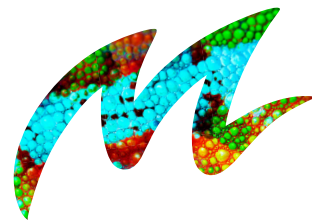

HEALTH & HYGIENE

We recommend the following cleaning routine to keep your European Green Tree Frog healthy and happy:

	Water	Substrate	Enclosure
Daily	Change old water for fresh water	Spot clean	Check vents on enclosure are not blocked and allow air to pass through freely
Weekly	Disinfect water bowl or dish	Agitate substrate to prevent any bacterial build up and to allow any dirty bedding to be removed	Wipe down glass and walls with a reptile safe disinfectant
Monthly		Take out old substrate and replace with new substrate	Wipe down inside the enclosure and disinfect décor with a reptile safe disinfectant

Always wash your hands, surfaces and equipment with warm water and disinfectant immediately before and after handling your animal, their food, enclosure, and any other equipment using HabiStat Anti-Bac Spray (HABS) for any surface and HabiStat Hand Sanitiser (HABG) for hands.
